The Lehigh Valley Rushes (onl Here.

The Lehigh Valley Railroad issued a statement last night in which it stated that solid frainloads of coal running direct from the mines to destination was a plan being adopted by the road to releve the shortage in New York and other cities in the East. The first trainload of fifty cars containing 2,000 tons of domestic sizes of anthractic has just completed its run from the Pennsylvania fields to Perth Amboy, where Lehigh Valley coal is dumped into bases for delivery in New York and New England cities.

The coal run through yesterday

land cities.

The coal run through yesterday was part of a day's output of three Pennsylvania mines and was rushed direct to Perth Amboy without stopping for classification or other yard work.

In Long Island City yesterday aftermeon it was necessary to send police reserves to keep in check a crowd of 200 men, women and children who had besseiged the coal distributing station at the yard of Jurgen-Rathjen & Co. on the East River, at the foot of Division street, where a sign had been displayed amouncing that 100 pound lots would be sold for 50 cents. The company disposed of more than 150 tons of coal during the day.
